Description of Work:

time of sale

The applicant above hereby agrees that the completion of this application process does not give the right to commence construction, nor does it guarantee the issuance of a permit to construct. Upon review of the plans, specifications and other required information submitted, The Office of Building Inspections will provide written approval or denial of a construction permit pursuant to section 70-11B of the Code of the Town of Cheektowaga. Total permit fee listed below is subject to change based on the accuracy of total estimated construction cost and level of work proposed. The Office of Building Inspections will notify the applicant if the fee will change after review of the plans and materials submitted by the applicant.

This is NOT a Building/Plumbing Permit.

Work cannot begin until you receive the approved permit in the mail.
